Thurber's Annual
Catalogue of
Seeds and Plants
For the Year 1907.

TO THE PUBLIC.

I thank my many patrons for the favors shown me in the past, and would ask those who have never dealt with me, to compare prices and test the quality of my seeds, with those whom they have formerly dealt, and trust that from old and new customers I will receive my share of your patronage.

My aim has been to deal only in the best quality of seeds ; it will be my purpose in the future.

There are so many reasons why the best seeds do not always germinate, that it must be distinctly understood that my seeds are not under any guarantee for the productiveness of the crop.

William R. Thurber,

Brooklyn, Conn.

SPECIAL OFFER

ON

FLOWER SEEDS.

As an additional inducement to individuals who desire to possess a large collection, for or the formation of clubs for the same object, we offer to send by mail, free of postage, to any address in the United States or Canada, the following:

Purchasers remitting \$1.00 may select to the amount of \$1.40.					
"	"	2.00	"	"	3.00.
"	"	3.00	"	"	5.00.
"	"	5.00	"	"	10.00.

REMEMBER this discount is on Flower seeds only.

In sending orders for Flower Seeds by mail, it will only be necessary to give the date of Catalogue from which the selection was made, and the NUMBER instead of the name of the varieties.

Seeds by Mail, Freight or Express.

Flower or Vegetable Seeds ordered by the packet, ounce or quarter pound will be sent by mail or express at catalogue prices. When Vegetable Seeds are ordered by mail in quantities of one-half pound and upwards, purchasers must send eight cents per pound for postage. When Peas and Beans are ordered by the quart, by mail, add fifteen cents per quart; Corn, add ten cents per quart.

About Ordering.

In ordering please write your name, post-office and state plainly. Remittances should be made either by money order on Brooklyn, Conn., registered letter or bank check, payable to my order. Remittances made in any other way are at the risk of the sender.

My Greenhouse facilities give me the best opportunity for constant tests of all seeds in my hands.

Market gardeners using large quantities of vegetable seeds and plants may be greatly benefited by sending me their list to be priced before buying elsewhere.

Shipment of Plants.

I will send plants by mail, as heretofore; but I would here impress upon my patrons the fact that larger and finer plants, and more of them for the same amount, can be sent by express; extra plants are always included.

I MAKE NO CHARGE FOR BOXING OR PACKING. All orders should be addressed to WILLIAM R. THURBER, Brooklyn, Conn.

Sowing Flower Seeds.

In sowing all small seeds care should be taken to have the soil mellow and fine and the seeds should be covered very lightly—in fact the smallest of them should be sown and the soil merely pressed with a board or hand.

Hardy Annuals may be sown in the open ground from the time the ground is well settled in the spring till late in the summer for succession.

Half-Hardy Annuals should not be sown in open ground till after settled weather and biting frosts are past.

Tender Annuals must not be sown in open ground before all frost is past and the weather is warm and summer-like.

All Annuals may be forwarded early in hot beds or the window, but the best satisfaction results in open ground.

Biennials and perennials are best sown in shallow boxes and set out into pots or boxes; and finally, when strong, placed in permanent positions where they are to flower.

General List of Flower Seeds.

ANNUALS grow, bloom and die the first year from seed.

BIENNIALS bloom the second year from seed and then die; though many if sown early in the spring will flower the first year.

PERENNIALS bloom the second year from seeds, and continue to grow and bloom for many years.

SPECIAL LIST

OF

VEGETABLE SEEDS

EMBRACING
All the Leading Varieties.

Suited to the Wants of the Market Gardener
as well as the Family Gardener.

Of course, we cannot warrant them to produce a perfect crop, as we do not have control of their planting nor the culture of the crops, and often the weather is so unfavorable as to either destroy the best seeds or to badly injure a growing crop.

When vegetable seeds are ordered by freight or express in quantities of one-half pound and upward, they will be sent at catalogue prices, but when ordered by mail in the same quantities, add at the rate of eight cents per pound for postage.

When Beans or Peas are ordered by mail by the quart or pint, add at the rate of fifteen cents per quart. Corn, add at the rate of ten cents per quart.

BEANS.

Dwarf or Bush.

10c. per packet by mail. Add 15c. per quart if sent by mail.

Improved Early Red Valentine. Early, productive, tender and of best quality, green pod. Pt, 12c, qt., 20c, pk., \$1.25.

Dwarf Horticultural. A bush variety of the well known Horticultural Pole bean. Pt., 15c, qt., 20c., pk., \$1.25.

Davis White Wax. Variety with wax-like pods. The seeds are pure white. It is very productive and an excellent variety. Pt. 15c., qt, 25c., pk. \$1.75

Improved Rustless Golden Wax. The pods are produced in profusion, are quite stringless, very white wax-like. Pt. 15c, qt, 25c. pk, \$1.75.

Wardwell's Dwarf Kidney Wax. This variety is very hardy.

It produces a heavy crop of purely wax pods, not liable to rust or blister. The pods are thick and tender. Pt. 15c, qt. 25c, pk. \$1.75

Burpee's Stringless Green Pod. The pods are thick, crisp and tender. It is of value to the market gardener, being very early. Pt. 15c, qt, 25c, pk. \$1.25.

Henderson's Bush Lima. It grows in a compact bush form about 18 inches high, and produce enormous crops of delicious beans. Pt, 15c, qt. 30c.

Burpee's Bush Lima. This is a bush form of the well known large White Lima Bean. It is very fixed in its bush character, growing to a uniform height of about 20 inches. The pods contain as many beans as the Pole Lima. Pt. 20c, qt, 30c.

25 Pkts. Vegetable Seeds for \$1.00.

CABBAGE.

If by mail in quantities of one-half pound and upward, add at the rate of 8c. per lb.

The cabbage requires a deep, rich soil and thorough working. For early use the plants should be started in a hot bed or cold frame. Some of the large, late varieties seem to do best if the seed is sown in hills where they are to remain. Plant the large varieties 3 feet apart, the small, early sort from a foot to 18 inches.

Henderson's Early Summer. It is the earliest of large cabbage, ten days later than the Wakefield, and rarely, if ever, cracking open when ripe. Pkt. 5c, oz. 15c, 1-4 lb. 50c, lb. \$1.75.

Early Spring. A round, flat-headed cabbage, as early as Jersey Wakefield. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

Henderson's Succession. About one week later than the Early Summer, but is double the size; good either early or late. Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.

CAULIFLOWER.

Any soil that will grow early cabbage will grow cauliflower, as their requirements are almost similar.

Henderson's Early Snowball. This variety has given the greatest satisfaction in all sections; the earliest of Cauliflowers. It is about a week earlier than any other sort. Every plant forms a head. Pkt. 15c, oz. \$2.00.

25 Pkts. Vegetable Seeds for \$1.00.

CELERY.

Sow seeds in a hot bed or in a cold frame. As soon as the plants are about three inches high, transplant to a nicely prepared bed in the border, setting them four or five inches apart. When some eight inches high and fine, stocky plants, set them in trenches. Earth up a little during the summer, keeping the leaf stocks closely together, so that the soil cannot get between them. Finish earthing up in autumn, and never hoe or earth up in moist weather, nor when plants are moistened with dew.

White Plume. The one quality recommends it especially above other sorts is that it can be blanched without high banking. Pkt. 5c, oz. 20c.

Golden Self-blanching. A most valuable variety, partaking of the character of the celebrated White Plume, golden color, very solid and of a nutty flavor. Pkt. 5c, oz. 30c.

Crosby's Early. Early and a great favorite. Rather small ears but productive and excellent quality. Pt. 10c, qt. 15c, pk. \$1.00.

CUCUMBER.

If by mail in quantities of one-half pound and upward, add at the rate of 8c. per lb.

In this latitude, it is useless to plant in the open ground until near the first of June. Make rich hills of well rotted manure, two feet in diameter, and plant dozen or more seeds, covering half an inch deep. When all danger from insects is over, pull all but three or four of the strongest plants. The middle of June is early enough to plant for pickling, make the hills 6 feet apart.

Improved Early White Spine. A favorite market variety; productive; pkt. 5c, oz. 10c, 1-4 lb. 25c, lb. 65c.
